

Directions and Parking Instructions

Arts+ is proud to announce a new pilot creative arts lab, The Bridge, located near the NoDa neighborhood. This 18-month project aims to serve as a platform for testing new approaches to arts education and activating a neighborhood that lacks arts education experiences. With this purpose in mind, The Bridge is not located in a well-known area; it is off the beaten path. **Note that some GPS directions are incorrect, so please pay careful attention to the instructions below.** Also, the intersection of Craighead Road and the LYNX light rail has recently closed. There is no access to Craighead Road from North Davidson Street.

The Bridge: 4100 Raleigh Street, Charlotte, NC

LYNX Blue Line

The [Sugar Creek light rail station](#) is located immediately next to the building in which The Bridge is located. When exiting the light rail at the Sugar Creek station, walk across the adjacent concrete parking lot to your right, towards the garage doors. Follow the sidewalk to the left of the garage doors, on the street-side of the building. Take the sidewalk all the way to the Sugar Creek Road bridge, turn right, and the entrance to our space will be at the end of the sidewalk.

Arriving from North Tryon Street

For those arriving from N Tryon Street, travelling north, take a right on E Craighead Road, which is about 3 miles from Uptown. In less than ½ mile, take a left onto Raleigh Street. In a short distance, Raleigh Street will appear to dead end, when in fact, it continues to the right. Take that right to stay on Raleigh Street. After taking this right, The Bridge will be on your right in less than ½ mile, immediately after the LYNX parking garage. Park in the concrete lot adjacent to the road and follow the sidewalk to the left of the garage doors, on the street-side of the building. Take the sidewalk all the way to the Sugar Creek Road bridge, turn right, and the entrance to our space will be at the end of the sidewalk.

Arriving from North Davidson Street

The LYNX light rail intersection at Craighead Road is now permanently closed. There is no access to Craighead Road from North Davidson Street. For guests arriving from N Davidson Street, travelling north, take a left on Sugar Creek Road (just past Craighead Road) and continue following the directions below for arriving from East Sugar Creek Road.

Arriving from East Sugar Creek Road

For guests arriving from E Sugar Creek Road, travelling north along the bridge, take a left onto Greensboro Road at the bottom of the bridge. This road will become Raleigh Street in a short distance, and The Bridge will be on your right in ½ mile, immediately after the LYNX parking garage. Park in the concrete lot adjacent to the road and follow the sidewalk to the left of the garage doors, on the street-side of the building. Take the sidewalk all the way to the Sugar Creek Road bridge, turn right, and the entrance to our space will be at the end of the sidewalk.

Important Note: Some GPS systems will guide you onto E Sugar Creek Road to access Raleigh Street. This is not possible. Raleigh Street cannot be accessed from the E Sugar Creek Road Bridge. Raleigh Street can only be accessed from N Tryon Street, N Davidson Street and Greensboro Road.
